# BEST PILOT

The Smart Way to Manage Flight Training

Efficiency made easy.

Compliance made certain - you've reached the Best Pilot level.

Running a flight school means juggling a thousand moving parts - aircraft availability, instructor rosters, student cancellations, unpaid flights, payroll, maintenance logs, regulatory deadlines, and more.

It's a high-stakes balancing act with little room for error. Best Pilot brings order to the chaos. With smart automation, centralized records, and real-time scheduling, it gives you certainty, control, and peace of mind - every step of the way.

Try Best Pilot today.

Why Best Pilot?

We understand flight training. We build the systems that power it.

📖 Electronic Aircraft Technical Log (e-ATL)

Digitally track aircraft status, maintenance, and flight logs—no paperwork, no delays.

▶ Digital Records & Audit Readiness

Secure, centralized documentation aligned with EASA standards—always ready for inspections.

⚠ Document Expiry Alerts

Automatic reminders for certifications, maintenance, and student records—stay compliant effortlessly.

📄 Pre-Flight Briefing Materials

Instant access to lesson plans, checklists, and theory modules—no more paperwork headaches.

💼 Instructor Workload Management

Fair scheduling, automated flight hour logging, and fatigue prevention.

📷 Automated Billing & Stripe Integration

Students preload credit before booking. No unpaid flights. No chasing invoices.

📊 Student Progress Dashboard

Clear visibility into completed lessons, flight hours, and readiness for checkrides.

🖥 AI-Assisted Speech-to-Text Feedback

Instructors speak their feedback; Best Pilot converts it into clear, actionable insights for learners.

📅 Smart Scheduling & Resource Allocation

Real-time availability of instructors, aircraft, and students—no more double bookings or wasted time.

📋 Instant Grading & Feedback Tools

Fast, consistent, and constructive debriefings - now mobile-friendly with speech-to-text enabled.

🎓 Customizable Curriculum & Lesson Planning

Tailor training programs to meet regulatory standards and individual student needs.

> *Thanks to Best Pilot, planning training is now quick and straightforward, and setting up prices or tracking student balances takes just a few clicks. It feels like the software is growing together with our school, which gives us confidence to rely on it every day.*
>
> Szabolcs Veigli, Head of Training
> Malév Aero Club

> *The Best Pilot system makes it much easier to stay on top of essential documentation, from medicals to ratings, so nothing slips through the cracks. Generating logbooks takes no effort, and the clear calendar helps us schedule aircraft and instructors without confusion. Most importantly, we can easily track each student's progress throughout their training.*
